Catholic Schools Office Diocese of Birmingham

INTRODUCTION

There is no one size fits all approach when it comes to our Catholic schools or to the students and staff within them, particularly when addressing their health and their safety. Recommendations within this document are predicated on the needs of the school and the level of infection within the school's community. Our successful delivery of in-person instruction throughout the 2020-21 year contributed heavily to the development of this year's guidelines.

A set of tiered options allows for schools to operate flexibly according to the situation at hand in the hope that uninterrupted in-person learning can safely occur. The purpose of this document is to guide school administrators, teachers, and staff to align their school and classroom plans with guidance developed in accordance with research, state and national public health guidance, and a committee of relevant experts.

Our priority remains, as always, with providing a safe, healthy learning and working environment for our students and our staff while recognizing that adjustments will need to be made to maintain safety, academic excellence, feelings of belonging, and an emphasis on our faith life.

Take this guidance and use it to develop the plan that meets your school's needs.

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

ESSENTIAL COMPONENTS FOR THE 2021-2022 SCHOOL YEAR

With the Catholic Schools Office, school staff, and parents working together, we will have another highly successful, safe, and healthy school year. The continuation of certain preparedness, preventative, and protective measures combined will assist us in this process.

1. Facial coverings are welcome to be worn by students and by staff but may not be required as the general rule at all times. Certain events, situations, or times of increased community transmission may result in a temporary mask requirement for students and/or staff. Such a decision will be made and communicated to those involved by school or by diocesan leadership.
2. Maintain a distance of 3 feet between individuals of the same class as much as possible. A distance of 6 feet may be helpful between students of different classes.
3. Staying home when exhibiting symptoms of an illness is very important for students and for staff to mitigate the spread of contagious illnesses.
4. A quarantine period of 10 days is required following a known exposure to Covid-19 for students and staff who are not considered fully vaccinated.
5. Vaccination is not required for eligible students or staff.
6. Fully vaccinated students and staff, or those who have had a confirmed case of Covid-19 within 90 days, will not be required to quarantine following a known exposure to Covid-19.
7. Handwashing, hand sanitization, and other hygiene measures will continue throughout the school day.
8. Regular cleaning and disinfection will occur throughout the school day and after school.
9. Increased ventilation and use of outdoor spaces (when possible due to weather and other factors) will be utilized.
10. Vigilance and consideration for mental health of students, staff, and families should be proactively planned.
11. Special attention should be given to community building for all, particularly new families to our schools and for those returning from virtual learning, as we welcome opportunities to interact safely in person again.
12. Virtual options, either through Catholic Virtual or through school staff, may be available. The decision whether to offer a virtual option and how it will be offered is made by the administration at each individual school.
13. Monitoring of updated guidance and/or health orders from the CDC, ADPH, local health departments, as well as the current health situation in the geographic region of the Diocese of Birmingham may result in updates and revisions to this guidance throughout the school year.

Boldly Catholic | Academically Excellent | Rooted in Truth

TIERED SYSTEM OF RESPONSE- PROTOCOLS DURING IN-PERSON INSTRUCTION

Level I will be utilized for in-person instruction for the 2021-22 school year as circumstances allow.

- Masks welcome but not required
- 3-foot distance maintained when possible
- Increased disinfection
- Emphasis on hygiene and hand washing
- Visitors welcome with protocols
- Field trips and extracurriculars allowed with protocols

Additional protocols may be implemented for certain events, such as large-scale gatherings, or during certain times of day.

These additional protocols may be requested even during Level 1 times, so that certain types of events can safely occur.

The following protocols may be utilized just for the event:

- Masks
- 6-foot distance
- Increased disinfection
- Emphasis on hygiene and hand washing
- Screening protocols, such as temperature checks or a questionnaire

During times of increased community transmission, more stringent protocols may be put in place temporarily to mitigate spread and protect in-person learning.

The following protocols may temporarily be required throughout the school day:

- Masks
- Screening protocols
- Changes to certain procedures to reduce student movement
- Reduced interaction between students of different classes or other schools, such as field trip or off-site events

Catholic Schools Office Diocese of Birmingham

LEVEL 1 ORGANIZATIONAL PROCEDURES AND PROTOCOLS

Working in conjunction with the tiered system of response outlined above and in keeping with state, local, and national health guidance, our schools will minimize risk and maximize instructional time through three pillars: Preventative Measures, Protective Measures, and Preparedness Measures, while continuing to emphasize Catholic Identity; high-quality, developmentally-appropriate curriculum and instruction; community building and relationships; and the importance of outdoor play and socialization. Our protocols may be implemented at varying levels throughout the 2021-22 year dependent upon the community transmission that may occur within an area or a school.

Prevention	Protection	Preparedness
Staying home when exhibiting signs of an illness	Maintaining 3-foot distance as much as possible	Remaining up-to-date with guidance from national, state, and local health organizations
Utilizing up-to-date guidance for quarantine after exposure for individuals who are not fully vaccinated	Increase ventilation and airflow in indoor spaces and encourage outdoor time	Continually evaluating practices within the 3 Pillars to lessen or strengthen according to the current local health situation and to maintain efficiency and effectiveness
Increased frequency for cleaning and disinfecting shared items and spaces throughout the school day and at the end of each day	Making safe selections and enacting protocols for field trips	Planning for and communicating steps to be taken should cases occur within the school community
Increasing hand washing opportunities and teaching safe hygiene practices	Giving consideration to holding school events safely, so that community interactions can occur	Implementing a tiered system of short-term virtual adaptations to instruction in response to the local health situation when needed
	Updating certain systems and schedules to allow for recess, food service, hallway traffic, and school assemblies, and masses to continue in safe ways	Train students, staff, and families in protocols that will be implemented and instructional methods that will be used
		Plan social-emotional learning supports for students, families, and staff

Boldly Catholic | Academically Excellent | Rooted in Truth

LEVEL 3 ORGANIZATIONAL PROCEDURES AND PROTOCOLS

Prevention	Protection	Preparedness
Temporarily adapting attendance and sick leave policies for students and staff, if needed	Maintaining 6-foot distance as much as possible	Remaining up-to-date with guidance from national, state, and local health organizations
Maintaining 6-foot distance for all visitors not within the same household	Maintaining student cohort groups as much as possible	Continually evaluating practices within the 3 Pillars to lessen or strengthen according to the current local health situation and to maintain efficiency and effectiveness
Screening students, staff, and visitors through a short questionnaire daily	For the safety of all, wearing a face covering is required	Planning for and communicating steps to be taken should cases occur within the school community
Increased frequency for cleaning and disinfecting shared items and spaces throughout the school day and at the end of each day	Creating community through virtual opportunities for interaction	Implementing a tiered system of short-term virtual adaptations to instruction in response to the local health situation when needed
Increasing hand washing opportunities and teaching safe hygiene practices	Updating certain systems and schedules to allow for recess, food service, hallway traffic, and school assemblies to continue in safe ways	Train students, staff, and families in protocols that will be implemented and instructional methods that will be used
Reducing entry to the school building during school hours for non-essential contractors or vendors	Increase ventilation and airflow in indoor spaces and encourage outdoor time	Plan social-emotional learning supports for students, families, and staff

TIERED SYSTEM OF RESPONSE- MODES OF INSTRUCTION

The primary response to instruction will be Face to Face Instruction. CASE Learning may take place during specific quarantine situations for individual classrooms whose students are too young to be eligible for the vaccine or for those who are not fully vaccinated. There may be circumstances within individual schools where Hybrid Learning or CASE Learning may need to occur for a short time. These tiers may be enacted according to the situation at a school. The decision is made by the school pastor and/or president, principal, and the Superintendent based on the current level of risk and exposure within the school or its surrounding community and utilizing guidance from national, state, county, and/or local health authorities. Guidelines to address a building closure are available should they be needed.

Tier 1: Face to Face Instruction	Tier 2: Hybrid Learning	Tier 3: CASE Learning
<p>Tier 1 is utilized when national, state, and/or local health orders, guidance, and/or conditions allow for face to face instruction to occur in school buildings.</p> <p>Tier 1 is our main mode of instruction and will occur with protective and preventative measures in place according to the health situation at the time.</p> <p>A virtual learning option may be offered at the discretion of each school.</p> <p>Quarantine situations may take place as needed due to cases within individual classrooms.</p>	<p>Though unlikely to occur, Tier 2 is utilized when additional precaution is necessary due to national, state, and/or local health orders, guidance, and/or conditions OR when school facilities and/or personnel constraints do not allow for Tier I instruction to safely occur.</p> <p>In Tier 2, half of a student population attends school at a designated time with the other half occurring at another time.</p>	<p>Tier 3 is utilized when national, state, and/or local health orders, guidance, and/or conditions do not allow for face to face instruction to occur in school buildings. Continuation of Academic and Spiritual Education (CASE Learning) takes place for a short period.</p> <p>Tier 3 is unlikely to occur for an entire building but will be utilized for quarantine situations for individual students or for classrooms.</p>

Catholic Schools Office Diocese of Birmingham

ENTRANCE PROTOCOLS

Each school will create well-defined entrance protocols for students, teachers, and visitors. These protocols define the processes that determine where, how, and which criteria need to be met to enter the school building each day. Processes may continually be revised to maintain efficiency, to meet the needs of the school based on observation and/or feedback, and to account for changes to health guidance.

SCREENING PROTOCOLS

Prior to Start of School

- Obtain signature to COVID-19 waiver (see page 33) from families new to the school. Waivers signed in previous years for current families are still enforced.
- Communicate screening questions to all staff and families and communicate that a 'yes' response to certain questions may result in non-entry to the school building
- Post screening questions in a visible spot as a reminder to all before entering the school building (see page 32)
- Proactively and repeatedly communicate updates to procedures and protocols

Daily

In order to enter the school building, students, teachers, visitors, and staff must meet certain criteria:

- No 'yes' answers to screening question 1, or to questions 2 and 3, if the individual is not fully vaccinated
- Sanitize hands

Adjust visitor protocols to offer protection between visiting adults, students, and staff through measures such as:

- Schedule routine visits from outside contractors, repair people, and vendors to occur outside of school hours, if possible
- Plan protocols for visits from parents or other family members, so that these visits and interactions can safely occur

STUDENT ARRIVAL/DISMISSAL PROTOCOLS

Review and update arrival and dismissal procedures to reduce possibility of transmission between student groups. Consider:

- Use of outdoor spaces to gather students during arrival and dismissal times
- Create routines for where students entering/exiting the school should report, so that large groups are not gathered in close proximity for long periods of time

Boldly Catholic | Academically Excellent | Rooted in Truth

FACILITIES PROTOCOLS

VISUAL CUES

- Utilize signage and visual cues to direct traffic and to maintain proper social distancing in school lobby, entry and exit doors, school office, etc.
- Have signage and visual cues for hygiene practices in classrooms, restrooms, lunchroom, and other common, visible areas
 - Wash hands often with soap and water for at least 20 seconds. Use hand sanitizer with at least 60% alcohol when soap and water are not available.
 - Avoid touching eyes, nose, and mouth
 - Cover mouth and nose with a tissue or with the inside of elbow when you cough or sneeze
- Consider visual supports to indicate social distancing measures such as:
 - 3 or 6-foot distance lines/markers
 - Directional arrows on floors to direct hallway, classroom, and other traffic
 - Marking “personal space” within the classroom- taped areas on floors, hula hoops, etc.

PHYSICAL STRATEGIES

- Have hand sanitizing stations visible and readily accessible with signage indicating need to clean hands upon entry
- Minimize potential for exposure through means such as sneeze guards in office areas and use of dividers that can be easily sanitized between spaces that are harder to maintain distance
- Update to touchless systems as much as possible for shared items such as:
 - Sign-in/sign-out systems for staff, students, and visitors
 - Dispensing water
 - Trash cans (lidless or foot-pedal operated)
- Identify ways to limit sharing of materials, manipulatives, and supplies and sanitize any shared materials between uses, when possible
 - In instructional spaces
 - In office/meeting/lounge spaces
- **Have ventilation and airflow evaluated and increased and encourage the use of outdoor spaces as much as possible**

Catholic Schools Office Diocese of Birmingham

HEALTH/HYGIENE PROTOCOLS

Each school will have a standard routine for all who enter the school, prevention measures to be utilized, enforced, and taught, and protocols for addressing health concerns throughout the school day. Names of positive cases may be disclosed to the local public health agency.

GENERAL

- Communicate to all the obligation to report symptoms of illness, known exposure to illness, and/or pending COVID test results
- Proactively communicate to all staff and families the criteria which determine non-admittance to the school building and which activities (if any) are restricted for visitors
- Train all staff in plan to handle confidentiality regarding health

ISOLATION PROTOCOLS

- Create a procedure for when student(s) and/or staff develop symptoms during a school day
 - Designate a place of isolation for the affected individual(s) to remain until he/she can leave the school.
 - Student(s) should always remain visible to a school employee while in isolation.
 - Ensure that staff member monitoring isolation area(s) has proper PPE

IN THE EVENT OF A POSITIVE CASE

In the event of a positive case within the household of a student or staff member, current health guidance requires the members of the household to be quarantined for at least 10 days.

- Students/staff members who are not considered fully vaccinated or who have not had a confirmed case of Covid-19 within the previous 90 days would not be able to come to school during that time.
- Students/staff members who are considered fully vaccinated do not have to quarantine following an exposure to Covid-19.
- Students/staff members who have had a confirmed case of Covid-19 within the previous 90 days do not have to quarantine following an exposure to Covid-19.
- Classmates/close contacts of a quarantined/exposed individual do not need to quarantine unless the quarantined/exposed individual tests positive for Covid-19 within 48 hours of the last time the individual was in close contact with others at school/school event

In the event of a positive case of a student or staff member, the student or staff member may be able to return after being quarantined for 10 days since the onset of symptoms AND being fever-free for at least 24 hours without the aid of fever-reducing medications AND with improvement to respiratory symptoms without the use of medications, or until released by the health department.

- Notify the local health department **and the Superintendent immediately** and submit positive or potential positive cases to the [ADPH Report Card](#)

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

- Plan will be developed with the entities above to address who needs to be notified of potential exposure, disinfection protocols, and next steps for school or class closure depending on the circumstances involved
- When notifying families and staff, maintain confidentiality in accordance with ADA policy
- Positive cases of Covid-19 still must quarantine even if the infected individual has been fully vaccinated or had Covid-19 within 90 days of the current infection

STUDENT ABSENCE PROTOCOLS

- Establish and communicate protocol for reporting of illness by students/families. Designate staff member(s) to receive these calls and to use a consistent reporting system for symptoms, duration of illness, etc.
- Strengthen the school's "return to school" protocol to include benchmarks that allow a student to return following a confirmed case of Covid-19
 - 10 days from the onset of symptoms
AND
 - 24 hours fever free, without the aid of fever-reducing medications
AND
 - Significant improvement in symptoms, without the use of medications
 - This does not necessarily equate to 11 days because they all have to occur
- Update attendance policies and procedures for students **who are not eligible to receive a Covid-19 vaccination** to accommodate need to stay home when sick or exposed to illness and to remain out of school until return criteria can be met.
- Students who are eligible to receive a vaccination but have not will adhere to the school's regular policies for absences.

PERSONNEL PROTOCOLS

- Establish and communicate protocol for reporting of illness by staff. Designate staff member(s) to receive these calls and to use a consistent reporting system for symptoms, duration of illness, etc.
- Update attendance policies and procedures for staff to remain out of school until return criteria can be met **after a confirmed case of Covid-19**.
 - 10 days from the onset of symptoms
AND
 - 24 hours fever free, without the aid of fever-reducing medications
AND
 - Significant improvement in symptoms, without the use of medications
 - This does not necessarily equate to 11 days because they all have to occur
- Staff who are eligible to receive a Covid-19 vaccination but have not will adhere to regular attendance and absence policies. Sick days and personnel days will be counted.
- Special considerations for staff:
 - Do not tell a staff member he/she must stay home due to age or an underlying health condition unless a health order requires it or the disability poses a direct threat to their

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

- health/safety as defined by the ADA and the risk cannot be mitigated or eliminated by accommodation
- When a staff member informs administration that they cannot return to work due to COVID-19 or an underlying health condition:
 - Engage in the interactive ADA process- meet with the employee to understand the situation and the limitations and determine whether any accommodations can be made so the employee can still perform essential functions of the job
 - You may obtain medical evidence of the condition and the physician's suggested accommodations and the physician's determination of the limitations
 - If the school feels accommodations cannot be made, consult legal counsel before taking or stating any action
 - Address concerns with staff who may be fearful or uncomfortable returning to work by outlining safety steps being taken to reduce likelihood of exposure. If the employee refuses to return to work, consult legal counsel
 - Plan for employee absences. Contingency plans could include:
 - Maintain an active list of substitute teachers
 - Hire teaching assistants or floating substitutes (aids with social distancing of classes when there are no teacher absences to cover)
 - Institute CASE Learning for some classes temporarily
 - Have substitute teaching plans ready for 10-day periods. Make plans accessible to school staff so that others know where to find them when needed

VACCINATION PROTOCOLS

- Covid-19 vaccination is not required for eligible students or staff of Diocese of Birmingham Catholic Schools.
- Proof of vaccination may be requested from students and staff
- Fully vaccinated individuals do not need to quarantine following a known exposure to Covid-19 unless symptoms develop

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

CLEANING PROTOCOLS

Schools need to develop additional cleaning protocols to ensure safe environments through regular disinfection.

- Confirm that the current janitorial staff:
 - Cleans AND disinfects
 - Increase frequency and type of cleaning
 - Request confirmation that procedures and supplies used meet CDC guidelines
 - Keeps cleaning records
- Encourage staff and students to regularly wipe down classroom furniture, supplies, and equipment
- Create cleaning plans, with designated frequency and responsibility for:
 - High-touch items and areas (when students are present, do not use sprays or cleaners with fumes)
 - Daily deep cleaning
 - Classrooms
 - Offices
 - Common areas
 - Restrooms
 - After a student or staff member develops symptoms during a school day
 - After identification of positive cases
- Ensure compliance with cleaning protocols by all who use the school outside of school hours- religious education, parish events, clubs, etc.

MAINTAINING PHYSICAL DISTANCING

How distancing can be achieved within each school varies according to the enrollment of the school or grade level, the personnel employed by the school, the age of the students, and the space(s) and furniture available within the school.

WITHIN THE CLASSROOM

- Utilize outdoor spaces as much as weather permits
- Remove non-essential items from classrooms to maximize space
- Organize classroom seating to maintain 3-foot distance between students, as much as possible
- Consider whether physical barriers, such as plexiglass dividers, are feasible and necessary for your school community

THROUGHOUT THE SCHOOL BUILDING

- Create visual supports (distance lines/markers, directional arrows on floors for hallway traffic)
- Reduce interaction between different classes of students, when possible
- Consider alternatives to shared coffee, water, and food/snack service

Boldly Catholic | Academically Excellent | Rooted in Truth

ADDITIONAL SOCIAL DISTANCING CONSIDERATIONS

- Consider ways to avoid large groups of students changing clothes for physical education at once
- Select physical education activities that allow for limited physical interaction or sharing of equipment, while indoors, such as kickball, badminton, calisthenics, etc. Utilize outdoor spaces as much as possible.
- Emphasize music instruction in reading music, playing percussion instruments, composing music
- Organize art supplies for use by individual students, as much as possible. Set aside time for hand washing/sanitizing before and after use of shared supplies.
- Follow liturgical guidelines in place by the diocese for health precautions during school Masses.
- When applicable, limit attendance at extracurricular and school community events in accordance with state and local health guidelines in place at the time. Provide virtual options for attendance of these events when possible to encourage involvement.
- Adjust before and after school care services to involve the same routines/procedures as throughout the school day

ATHLETICS

- Ensure compliance with AHSAA guidelines
- Keep up to date with changes to AHSAA guidelines and communicate changes to all involved
- Plan ways to maintain distancing for spectators and/or limit attendance according to current local health orders, if/when applicable

FINE ARTS, CHOIR, AND BAND

- Hold band practices outdoors with a greater distance than 6 feet apart, when possible. Indoor band practice with wind instruments is not recommended. Percussion instruments may be held indoors with 3 foot distance.
- Plan for physical distancing of students during rehearsals, practices, or activities
- Plan ways to maintain distancing for spectators and/or limit attendance according to current local health orders, if/when applicable

TRANSPORTATION AND TRAVEL

Transportation to/from School and/or School Events

- Stagger seating to maintain space between students, as much as possible
- Ensure ventilation and airflow on buses as much as possible
- Consider use of facial coverings for all on the bus, when populations of unvaccinated students will be on the bus for long periods of time
- Utilize same screening questions for driver and for students as used to enter the school building. Post questions in a visible spot upon entry to bus
- Clean and disinfect vehicles after each use

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

Travel to Outside Events

- Encourage virtual events as much as possible
 - Virtual field trip opportunities
 - Virtual professional development
 - Virtual retreats
 - Virtual conferences for staff and student organizations
- Overnight events for students, including field trips, retreats, and conferences, are allowed with proper health protocols in place. Conditions may require suspension of overnight events at certain times during the school year.
- Field trips are allowed with proper health protocols and conditions in place. Conditions may require suspension of field trips at certain times during the school year.

FOOD SERVICE

Food service can be safely continued on campus with provisions in place to ensure safe practices. These considerations are dependent upon the school's food service facilities.

Considerations for food service include:

- Ensure that glass or plastic partitions in food service lines allow students and staff to see and select the food but not breathe on, touch, or self-serve
- Ensure that all students wash hands before and after eating meals and snacks
- Develop system for food service employees to be checked daily for symptoms and wear facial covering and gloves when serving and preparing food
- Decide whether alternative lunchroom schedules or use of alternative spaces for eating are necessary, depending on cafeteria space and size of student population
 - Allow for alternative spaces to be designated for supervised class lunch use if more space is needed
 - Consider whether plexiglass dividers would allow for safe socialization to continue

Suspend use of drinking fountains, water dispensers, and other such high-touch methods.

Catholic Schools Office Diocese of Birmingham

TOOLS AND RESOURCES FOR SCHOOLS

HEALTH DEPARTMENT CONTACTS BY COUNTY/REGION

[Public Health Districts- Map and Contacts](#)

[County Health Department Contacts](#)

[Alabama Public Health COVID-19 Resource Page](#)

ADPH BACK-TO-SCHOOL TOOLKIT RESOURCES

The entire Back-to-School Toolkit can be found [here](#) and should be read and reviewed in its entirety. ADPH Report Card can be found [here](#).

SCREENING QUESTIONS FOR POSTING

This questionnaire should be posted in a visible location for student(s), staff, or visitors to see prior to entering the school building.

An affirmative answer to Question 1 results in non-entry to the school building.

Question 2 and 3 depend on the individual's vaccination status or previous infection with Covid-19 within the past 90 days.

1. Have you (or the student) and/or anyone in your household experienced any of the following symptoms in the past 24 hours:
 - Fever of 100.4° and/or chills
 - New cough that is not related to an existing condition
 - Difficulty breathing
 - New or unexplained muscle aches or body aches that is not related to a known activity or condition
 - Vomiting or diarrhea
 - New loss of taste or smell
2. Are you (or the student) and/or anyone in the household awaiting test results for COVID-19?
3. Have you (or the student) and/or anyone in the household tested positive for COVID-19 within the past 10 days?
4. Have you (or the student) and/or anyone in the household been notified of being a close contact of someone testing positive for COVID-19 within the past 10 days?

Boldly Catholic | Academically Excellent | Rooted in Truth

Catholic Schools Office Diocese of Birmingham

COVID-19 ACKNOWLEDGMENT AND LIABILITY WAIVER

Introduction:

The novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization. COVID-19 is extremely contagious. The school intends to follow federal, state and local standards of conduct and has put in place reasonable preventative measures to reduce the spread of the virus. However, even though such standards will be followed, and reasonable measures put into place, we cannot guarantee that you or your child will not become infected with COVID-19. Further, attending school and participating in activities associated with the school could increase your risk of you or your child contracting the disease.

Acknowledgment:

By permitting your child’s attendance at school and/or participating in school activities you acknowledge the contagious nature of COVID-19 and that your child may be exposed to or infected by COVID-19 and that such exposure or infection may result in injury, illness, disability, or death. You acknowledge too that the risk of becoming exposed to or infected by COVID-19 at school may result from the actions, omissions, or negligence of yourself or others, including, but not limited to, school employees and volunteers.

Further, in an effort to reduce the risk to your child, you agree that you will take your child’s temperature daily and will not take him or her to school should the temperature exceed 100.4 degrees. You agree that you will instruct and continue to instruct your child about the hazards of the virus, social distancing protocols and proper virus prevention hygiene practices.¹ You agree that you will continue to monitor your child’s health and wellbeing, and will have him or her tested whenever it appears that he or she may have become infected with COVID-19. Should that happen you agree that you will quarantine your child and notify the school officials. You understand and agree that delivering your child to school is confirmation that you have followed federal, state and local directives, instructions provided herein above and that you have answered the daily screening questionnaire(s) truthfully.

Waiver:

With an understanding of the risks involved, I further agree on behalf of myself, my child(ren), my spouse, our heirs, successors, and assigns, to release, indemnify, hold harmless, and defend the school, Diocese of Birmingham in Alabama, their teachers, staff, administration, employees, agents and representatives (“indemnitees”) associated with the school arising from or in connection with any negligent act or omission of the indemnitees’ in relation to prevention of the spread of the COVID-19 virus only.

I SPECIFICALLY UNDERSTAND AND ACKNOWLEDGE THAT I AM AGREEING TO DEFEND, INDEMNIFY AND HOLD HARMLESS THE INDEMNITEES’ FROM THEIR OWN NEGLIGENCE IN REGARD TO THE INDEMNITEES’ NEGLIGENT ACTION AND/OR INACTION IN REGARD TO PROTECTION AGAINST THE COVID-19 VIRUS.

Student(s) Name(s) _____
Parent/Guardian _____

Signature _____
Date _____

¹ Proper virus prevention hygiene includes regular and thorough washing of hands with anti-bacterial soap and hot water for at least 20 seconds; regular use of alcohol-based hand sanitizer after touching surfaces within the school and in situations where handwashing is not available; and refraining from touching the face area.
