

READING IS MAGIC

Dear Parents and Caregivers,

Reading IS magical!

When I need a break from this world, I open a book and let it transport me somewhere new.

I sincerely hope that our students read every day this summer. This school year, our students made immense progress in reading, and it would be a terrible shame to lose that progress during our summer vacation.

I have prepared summer reading 'fortune tellers' for each incoming grade to help (magically) choose their next book! The most important thing to remember is to read books they love and have fun!

Please let me know if there is anything I can do for you during the summer. I love to give individual book recommendations!
